The diagram shows a cross-section of a structure. On the left, a vertical line represents a wall or boundary. To its right is a large, irregularly shaped area representing a cut or excavation. The top boundary of this area is a curve that slopes upwards from left to right. The bottom boundary is a curve that slopes downwards from left to right. Inside this area, the text 'Cut 8' is written. To the right of this area, the text '6.5m Firecre' is written. Below the main excavation area, there is a separate, smaller triangular shape pointing to the right, defined by two lines meeting at a vertex on the left.

Firecrest 6.5

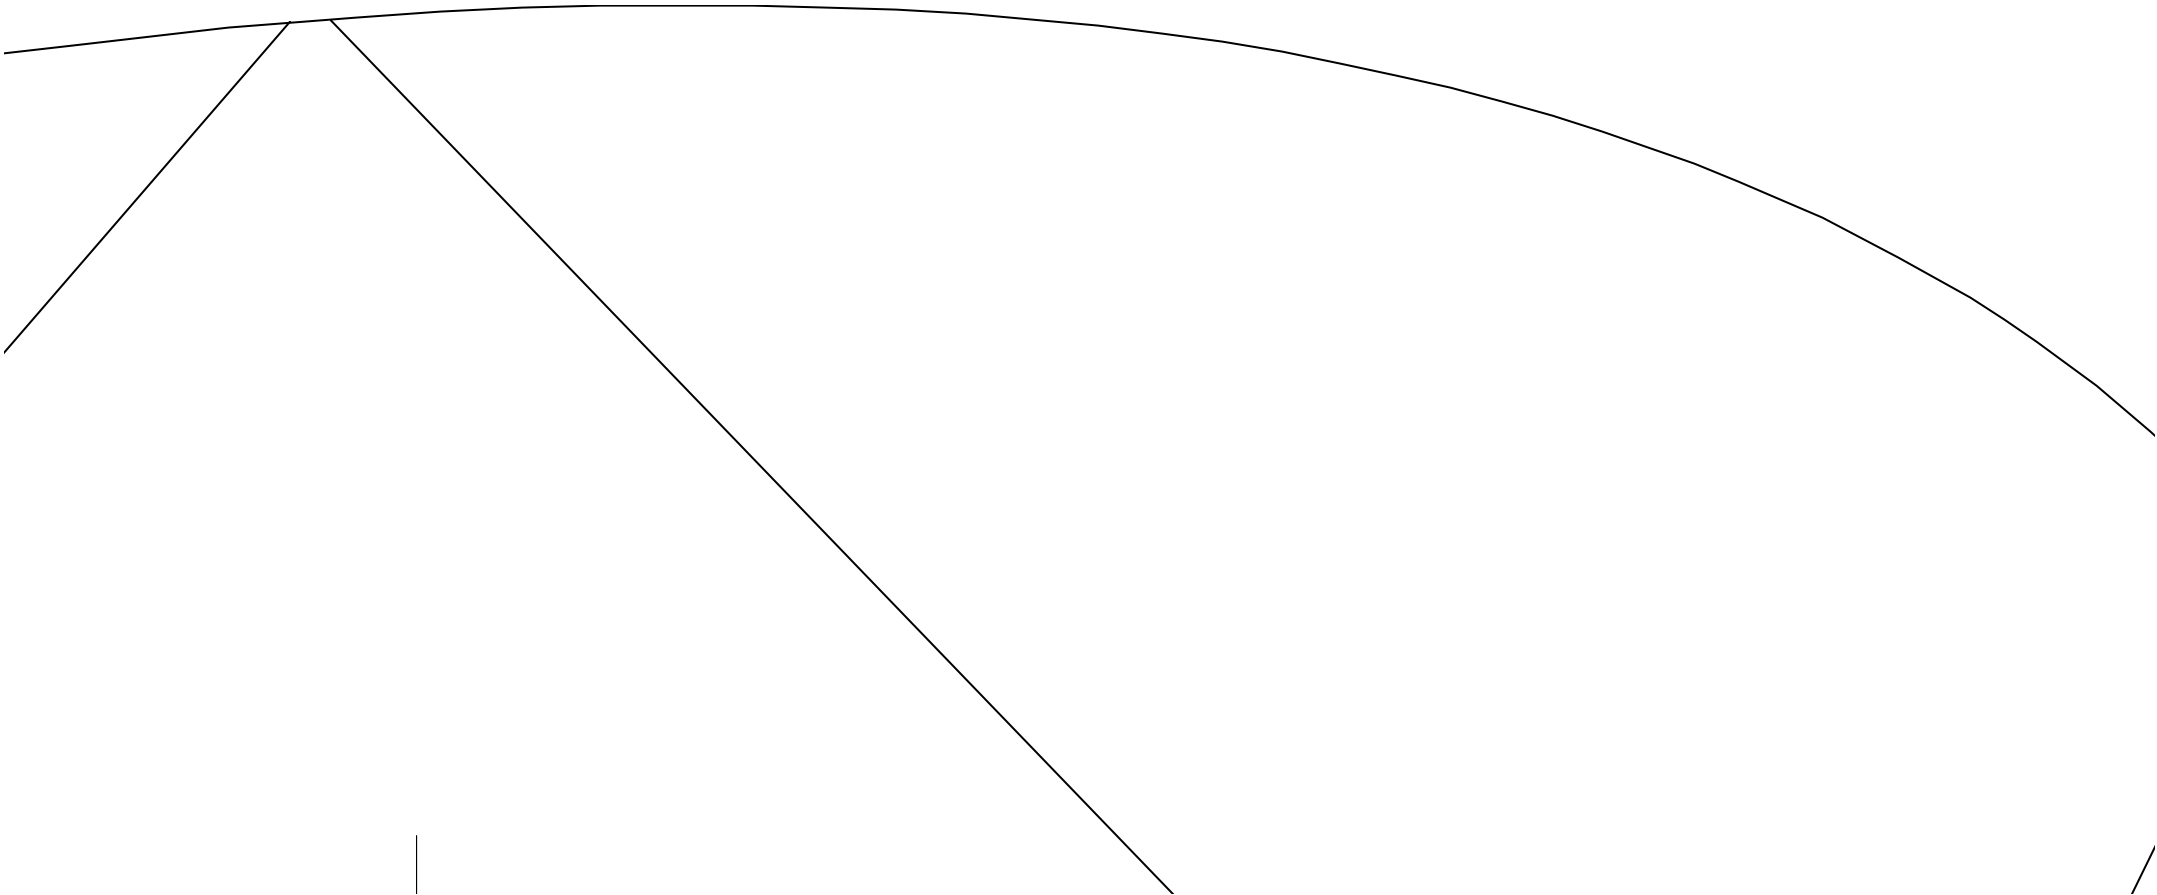

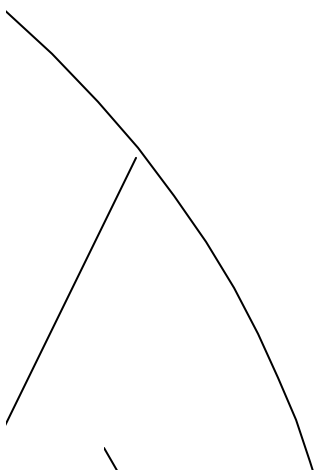

The background is white with several thin black lines. A long, slightly curved line starts from the left edge and extends towards the right. A shorter, straight line is positioned above it, sloping downwards from left to right. On the far left, there is a stylized, hand-drawn letter 'N' composed of three strokes. In the bottom right corner, a diagonal line slopes upwards from left to right.
